

What is Academic Training?

- J-1 students who are in good academic standing may obtain authorization for work off-campus, as part of an academic training experience. Training should relate to your degree program and must not involve any unskilled labor.
- After completing studies, J-1 students are eligible to work for up to 18 months if the job qualifies as “academic training.” Students pursuing post-doctoral studies are eligible for an additional 18 months training, for a total of 36 months. Non-degree students maybe authorized for AT for a length of time not exceeding their academic enrollment length. Students Interested in academic training during their studies should make an appointment with an advisor to discuss eligibility and course enrollment.
- Academic training must be integral to your program, recommended by your dean or academic advisor and authorized by the Responsible Officer/Alternate Responsible Officer of your Exchange Visitor program.
